Phonics & pronunciation we will see:

Recommended phonics focus: CH OU ON OI

- **OI** sound in **poire**
- **Silent letters.** We will see that the letter 's' is not pronounced in 'les' or the plural version of the fruits as final consonants are nearly always silent letters in French.
- **Liaison.** Understanding better that liaison is the word to explain what happens with pronunciation when a word that ends in a normally silent consonant is followed by a word starting with a vowel. The normally silent 's' in les is pronounced in **les oranges** and **les abricots** as both those fruits start with a vowel but the 's' almost sounds like a 'z'. This happens often in French.
- **Guttural 'R'.** Becoming more familiar with the French 'r' sound as seen in **fraise, orange, poire, prune, cerise & abricot**. Made from the back of the mouth, not the front.
