If you don't have Powerpoint at home, take a look at Canva, Visme or Prezi.

Key Facts

PowerPoint is one type of presentation software. Presentation software is used to create slideshows which are used to get a message across to an audience.

It is important to think carefully about the topic of a presentation when selecting a theme. You can personalise your presentation by formatting backgrounds or editing colours and fonts.

Morph

Fade

Transition and animation tools allow the presenter to draw attention and add interest to important information.

Questions to deepen your learning...

| Character | Critical Thinking | Creativity | Communication | Citizenship | Collaboration |
|---|---|---|---|---|---|
| What techniques can we use to make sure our presentation is meaningful to our audience? | Will my slide transitions and animations help my audience to focus on the subject matter? | How can I present my information in an original and innovative way? | How can I present the media which I have imported in a way which my audience will find helpful? | How can you use presentation software to share important ideas? | What skills can you bring to planning a presentation and how can you make sure you take on board the ideas of others? |

Teacher Assessment

| Learning Objective | Working Towards | At Expected | Above Expected |
|--|-----------------|-------------|----------------|
| Can I import media into a presentation? | | | |
| Can I use bullets and numbering in a presentation? | | | |
| Can I effectively choose a theme to suit the content of my presentation? | | | |
| Can I effectively use transitions to make my presentation engaging? | | | |

Self Assessment

| | |
|-------------------|-------------------|
| What went well... | Even better if... |
